Please Note: Have physician approval or accept full responsibility for any health problems.
Please inform your instructor of any health concerns.

SCC Yoga Club Class Descriptions

Fun Flow *with Sue*

This class offers a blend of exercises and poses to improve strength, flexibility as well as balance with emphasis on breathing, alignment and body awareness. Modifications are offered to tone it down for beginners or take it up a notch for students with more experience. We practice bringing the pose to your body, not your body to a pose. Props are encouraged. See you on the mat!

Mindful Yoga *with Christy*

This class integrates Yoga Basics and ancient practices designed to help the body move mindfully and safely. We begin with opportunities to “oil the joints”, find our breath and wake up the flow of energy. Rather than moving through a flow on one breath, we move into our expression of a posture, sensing and feeling, and finding ourselves through it. We seek just the right “ah-ha” expression within ourselves.

Yoga Flow *with Leyla*

Immerse yourself in the gentle, yet invigorating rhythm of this class, where each movement is guided by the breath, inviting you to explore the natural flow of your body. Building on foundational poses, this class introduces more physically energizing sequences, including balance poses, backbends, and creative transitions, making for a beautiful blend of mindfulness, strength, and flexibility, designed to nurture both your physical body and your inner calm. This class encourages you to connect deeply with your body while moving through a series of postures that are linked together in a continuous flow. Whether you're a beginner or an experienced yogi, this class offers modifications and variations to suit your personal practice and support your individual journey.

Yin & Singing Bowls *with Diane*

Yin Yoga targets the connective tissues, such as the fascia, ligaments and joints of the body that normally are not exercised very much in a more active style of asana practice. The connective tissue of the hips, pelvis and lower spine are the main focus. Connective tissues resist brief stresses but slowly change when a moderate stress is maintained for 1 – 3 minutes. Enjoy the “Sound Bath” of crystal singing bowls performed by Diane during half of the Yin class. *This class is performed entirely on the floor.*

Basic Chair Yoga *with Debbie*

This class includes the many benefits of yoga while enjoying the support of a chair. The majority of the poses will take place seated, while a few will be performed standing using the chair as a prop and for support. The focus of the asanas and stretches is to improve flexibility, skeletal alignment, muscle tone, posture, balance, circulation, breathing, and to relieve stress and tension in the body and mind. Each pose or stretch is done slowly and in conjunction with the breath. The instructor provides verbal guidance throughout. The practice ends with 15 minutes of Savasana (relaxation), accompanied by calming music, guided meditation or positive affirmations.

Advanced Chair Yoga *with Diane*

Just like other yoga practices, chair yoga increases your flexibility, strength, balance and body awareness. Chair yoga is a form of traditional Hatha yoga and anyone, regardless of age, body type or mobility, will benefit from this class. Advanced Chair Yoga will be a bit more challenging than Basic Chair Yoga in that it will include more standing and balance poses, twists, and the use of props. We will not be getting down on the floor!
